

# UNCCD Community of Learning and Practice on Drought (CLP)

*Dr. Suyu Liu (Co-Chair of UNCCD CLP)*

## What challenge it addresses

- Fragmented knowledge and coordination gaps, but drought does not need visas!
- Insufficient links between drought data and decision-making

## What CLP does

- Peer exchange across countries and institutions
- Connects data, policy, and practice

## Why it matters

- Supports implementation of drought strategies
- Strengthens institutional coordination

(Open to collaboration and exchange!)
