- **Mario Lopez**: “We are developing Drought Monitors for Venezuela, Ecuador, Chile, Colombia, Peru and Bolivia using the same approach as the Australian example. The first 2 monitors are already operational the next 2 are almost ready and we are working with the last two countries. CIIFEN is implementing with EUROclima resources”
“Another initiative I am working is a Central America Drought Guidelines to help the countries to implement their respective Drought Plans which they already have. CCAD is the implementing agency”

Integrated Drought Management Programme (IDMP)

Get in touch!

The image shows three interactive cards arranged horizontally. Each card has a title in an orange box, an icon, a description in a white box, and a small orange plus sign in the bottom right corner.

- Ask:** Icon of two speech bubbles (one with a question mark, one with an 'i'). Description: "Ask for assistance on integrated drought management".
- Find:** Icon of a magnifying glass. Description: "Find knowledge resources on integrated drought management".
- Connect:** Icon of a group of stylized human figures holding hands in a circle. Description: "Learn about the activities of IDMP and connect to them".
